

**SMALL CAP VALUE**

- Style: Small Cap Value
- Approach: Active; Bottom-Up
- Benchmark: Russell 2000 Value Index
- Inception: 7/1/12
- Strategy Assets: \$28 MM

**INVESTMENT PHILOSOPHY**

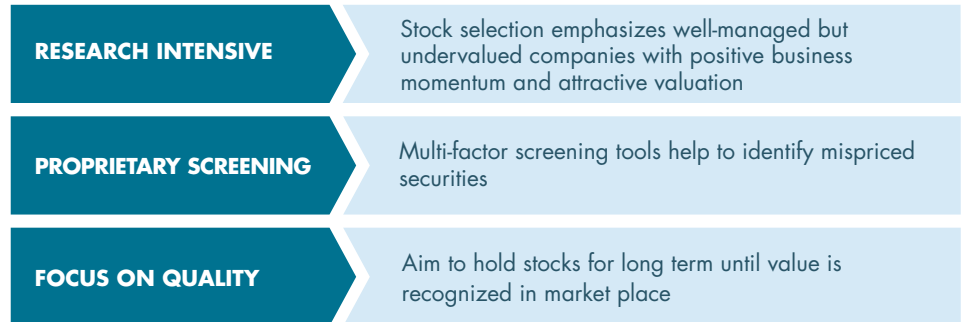

We believe quality small cap companies trading at low valuation levels may offer attractive opportunities for stock price appreciation over time. Given the tendency of money managers to focus on short-term fundamentals and stock price performance, a company’s underlying value is often overlooked and not recognized by the market. Through our fundamental research process and proprietary screening, we seek to identify well-managed, undervalued companies with improving fundamental and financial characteristics.

**FOCUSED RESEARCH**

Bottom-up fundamental research is the key driver of our equity investment process and is the prime determinant of our success. Each of our equity analysts has a strong belief in our investment philosophy and they devote an extraordinary amount of time to developing original investment ideas and to gaining a deep understanding of each company’s business.

Our Value approach leverages fundamental research and proprietary screening methods to help identify companies with experienced leadership, mispriced valuation, improving business momentum, and real potential for long-term price appreciation.
