

EMERGING MARKETS EQUITY ADR

- Style: QGARP
- Approach: Active; Bottom-Up
- Benchmark: MSCI Emerging Markets Index
- Inception: 4/1/2019
- Strategy Assets: \$4 MM

INVESTMENT PHILOSOPHY

We believe that a company’s ability to generate consistent and sustainable earnings growth, along with a good return on capital, will drive enhanced stock price performance over the long term. We also believe that stocks can become mispriced through the improper evaluation of fundamentals or short-term trading decisions. We seek to pay a reasonable price for the growth opportunities we identify and apply a disciplined valuation process to uncover securities that may be undervalued in the market. We believe a careful assessment of a company’s upside potential and downside risk is critical in navigating the emerging markets asset class.

ABOUT OUR FIRM

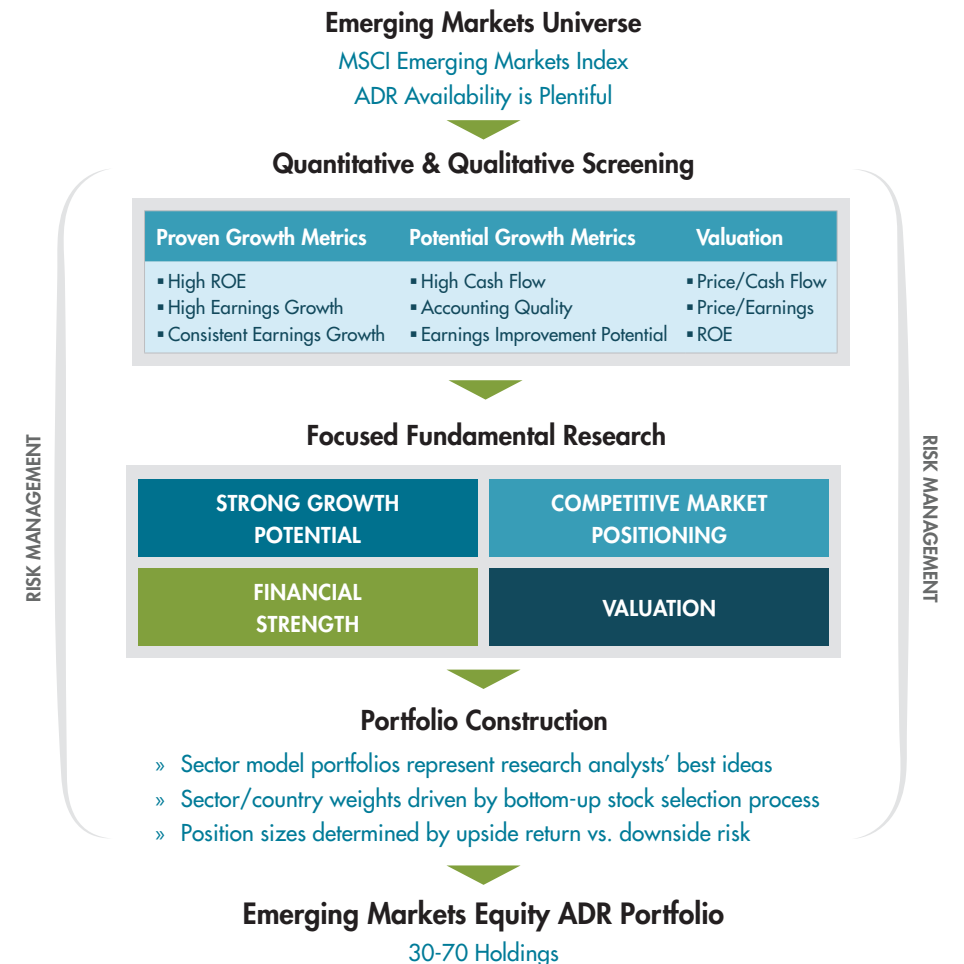

GW&K is a dynamic investment management firm that offers active equity and fixed income investment solutions to meet the needs of a diverse client base. At our core is an entrepreneurial spirit of innovation, a desire to help educate our clients and a level of service that is hard to come by. Our founding principles of applying rigorous fundamental research, focusing on quality and maintaining a long-term view still guide our investment process today.
