Performance Disclosure

The composite performance results displayed herein represent the investment performance record of GW&K Investment Management, LLC. GW&K is an SEC-registered investment management firm that offers active equity and fixed income investment solutions. Founded in 1974, GW&K is an independent and autonomous investment management firm that is an affiliate of Affiliated Managers Group, Inc. (NYSE: AMG), a publicly traded global asset management company. On February 1, 2019 the investment team of Trilogy Global Advisors, LP (TGA), an AMG Affiliate located in Winter Park, FL and New York City joined GW&K Investment Management. Effective March 30, 2015, the legal name of the firm was changed from Gannett Welsh & Kotler, LLC to GW&K Investment Management, LLC.

GW&K claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. GW&K has been independently verified for the periods January 1, 1995 through December 31, 2019. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Small/Mid Cap Core Composite has had a performance examination for the periods January 1, 2013 through December 31, 2019. The verification and examination reports are available upon request. The Small/Mid Cap Core Strategy utilizes fundamental research to identify small-cap and more established mid-cap companies that we believe are well managed and have sustainable growth prospects. The Strategy follows a core approach that generally invests in growth and value stocks. The Strategy focuses on quality and seeks to hold stocks for the long term and protect returns when markets decline. The Small/Mid Cap Core Composite (composite) includes all portfolios invested in the Small/Mid Cap Core Strategy with a minimum market value of \$250,000. The composite was created on January 1, 2006. On July 1, 2016, the composite was redefined to exclude portfolios with directed brokerage arrangements that do not pay explicit trading costs. These accounts were removed from the composite because their trading processes more closely resemble the trading processes of wrap portfolios. The Small/Mid Cap Core segments of multi-asset portfolios are included in the composite. Each segment of multi-asset portfolios is managed with its own cash account. Accounts are included in the composite after one full month under management. Closed accounts are included through the last full month under management. Inception date is January 1, 2006.

All results reflect the reinvestment of dividends and income, and factor in commission costs. Performance is expressed in U.S. dollars. Composite portfolio income may be net or gross of withholding tax depending on the accounting methodology of the custodian bank. particular GW&K portfolio due to various reasons, including differences in brokerage commissions, fees, client contributions or withdrawals, position size in relation to account size, diversification among securities and market conditions. Additional information regarding the policies for valuing investments, calculating performance, and preparing GIPS reports, as well as a complete list and description of the firm's composites and pooled funds is available upon request by contacting info@gwkinvest.com.

The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. Gross returns are used for the composite calculation. The standard deviation measure is presented annually, for periods where 36 monthly returns are available.

The firm uses an asset-weighted standard deviation calculation to measure dispersion, which is reported on a yearly basis. Dispersion is used to measure the volatility of portfolio returns within the composite. Only portfolios that have been included in the composite for the full year are included in the dispersion calculation. Dispersion of N/A represents information not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

To account for advisory fees, net performance results reflect the deduction of the maximum fee (1.00% annually, applied monthly) GW&K Investment Management would charge for managing separate accounts in this strategy. Total expenses for the Small/Mid Cap Core Collective Investment Trust, which is included in the composite, are 0.65% annually. Client fees may vary. The performance shown is compared to the Russell 2500 Index. The Russell 2500 Index is a broad based market weighted index composed of the 2,500 smallest companies in the Russell 3000 Index (3,000 companies

representing approximately 98% of the U.S. equity market capitalization). Indexes are not subject to fees and expenses typically associated with managed accounts or investment funds.
